MERCURY DROPS TO 48; COOL WEATHER PREDICTED

Can the straw hat and dig up that pawn ticket, if that is the case, for it is time for the benny to appear in season, according to the mercury, which dropped to the 48 point degree mark Wednesday night. This is said to be the lowest point reached this month. There were fires started in the stoves and grates last night for the first time and the atmosphere surely savors of the arrival of real fall weather. The weather indications are that there will be continued drops in temperature for a period of from 15 to 24 hours' duration for a period of a week or ten days.

Plans are being made for a big delegation of Madison county men and women voters to go to Lexington Friday and hear Franklin D. Roosevelt, Democratic candidate for Vice President. Elmer Deatherage is in charge of automobile arrangements, and it is hoped to have cars to take over all who want to go. Thousands of Democrats from all over Central Kentucky will be on hand to greet the brilliant young New Yorker who has been so honored. Roosevelt, the Democrat, is a progressive of the same type as his distinguished cousin, Theodore Roosevelt, was, and he is making the same sort of winning campaign.

I. W. W. PLAN REIGN OF TERROR

(By Associated Press)

Tacoma, Wash., Sept. 30.—The plan of the Industrial Workers of the World to inaugurate a period of terrorism in the Northwest within 20 days was charged by Congressman Albert Johnson of the Third Washington district, in a statement today commenting on anonymous letters received by the Seattle police and federal authorities, bearing a warning that radicals were planning to blow up financial institutions and buildings in Tacoma, Portland and Seattle. Secret Service operatives are attempting to trace the source of the letters.

BIG STRAW VOTE SOON TO START

PRESIDENTIAL CANDIDATES STANDING WILL BE MIRRORED TO PUBLIC LONG BEFORE ELECTION

(By Associated Press)

Washington, Sept. 30.—The campaign of Governor Cox, with the League of Nations the foremost battle slogan. His addresses today include Hutchinson, Newton and Witchita.

In his address here, Gov. Cox said he would have voted dry on

prohibition had he been acting under the same circumstances as

Harding who, the Governor declared, voted 32 times wet and

two times dry.

He also recommended the federal budget system and asserted that war taxes, especially the excess profits tax, is responsible for the high cost of living.

In place of the excess profits tax, he recommended a tax of from one to

one and a half per cent on the volume of business as a going concern.

The big unknown quantity in the forthcoming election is the women's vote. In order to accurately compute this vote, two ballot boxes will be installed in each Rexall drug store, one for the male vote, the other for the women. Each night the vote will be counted, that of the men and women totaled separately.

Each ballot clerk, in each town or city, after compiling his local vote, will telegraph his returns to a central point in that state. The state captain in turn will compile the total vote for the state and telegraph the returns to the Straw Vote Director at the Boston office of the United Drug Company.

In addition to this the state captain, after compiling the vote for his state, will send these returns back to each Rexall drug store in his state, where they will be prominently displayed in each store window.

The Boston office, after receiving the reports from all 48 states, will compile the total national vote for men and women separately, and a bulletin will be issued each night, together with the total figures of each state, which will be sent back to all 8,000 drug stores and to many newspapers and news agencies throughout the country.

In order to handle this straw vote an interchange of upwards of 20,000 messages, telephonic and telegraphic, will be necessary each day. Beginning about October 1, announcement will be made daily of the vote. An actual test of the Rexall straw vote was made in the last presidential campaign. While balloting was conducted only nine days in all the stores yet several million votes were cast and five days before the election the figures were announced.

This test vote showed that President Wilson had been re-elected by a small majority. It showed that he would carry California and also New Hampshire, an announcement which brought indignant denials from those who were opposed to him. When the total vote cast in the Rexall straw vote had been compared with those cast in the November election, they differed from the actual figures less than one-half of one per cent. With 80 days of balloting in the present test vote, not only can the reader keep in momentary touch with the temper of the public, but they will get a very definite idea as to how the women of the nation will vote on November 2 next.

The fact that L. W. Henley, executive secretary of the Republican National Committee, and personal representative of Chairman Will H. Hays, was traveling ahead of the Democratic nominee as an advance agent, arranging for exactly the heckling treatment that Senator Harding termed disconcerted, was quoted as an illustration. Of this disavowal of responsibility for the arrest, the Governor said:

"Nevertheless the fact remains that Senator Harding told the audience, in plain words, that he considered the interruption disconcerted, whereupon the man was taken to prison."

Almost precisely a similar instance in his own campaign, that took place at St. Paul, was quoted in comparison.

THE UNWRITTEN LAW

Pikeville, Ky., Sept. 30.—The unwritten law and temporary insanity will be the defense of Alonzo Griffin, placed on trial here for the murder of A. C. Clevinger at Hellier, August 14. Una Griffin, 16-year-old daughter of the defendant, told her father had intercepted a letter from Clevinger to her mother. She testified that her mother then told him that she was leading a "double life."

TEACHERS MEETING SATURDAY; PROGRAM

Extensive Program Arranged For the Event By Miss Anna Powell, of Kingston

(By Associated Press)

Saturday morning at 10 o'clock at the court house the third monthly meeting for Madison county teachers will be held, and there will be a continuance until the afternoon, the meeting closing at 3 o'clock. It is the duty, Superintendent Edwards states, of every teacher in the county to be present, and a big attendance is expected. At the last meeting this was cut short owing to the inclemency of the weather. It is probable that Prof. S. S. Myers, of Eastern Normal will be present and have charge of the musical program, which will be one of the features of the meeting, since the following official program has been arranged through the excellent management of Miss Anna Powell, of the Kingston school:

Have a thought that will do every other teacher good. Have it ready to say and don't be afraid to say it.

Each talker is asked to bring his list of "rote songs" and tell how many he has taught his school. It is hoped that Prof. Myers will be present to lead the music.

"Why have community meetings and how make them the greatest success?"—Miss Mary Quillan.

Special music.

"Why have teachers' meetings and how make them worth most to the children of Madison county?"—Mr. Elder.

"How teach pupils to study?"—Parris B. Akin.

Music—Quartet.

"Why the compulsory attendance law has not been enforced?" and "What is a live teacher?"—Sept. B. F. Edwards.

If any teacher has a topic he would like to discuss, he will please inform Miss Anna Powell at the beginning of the meeting and he will be given a place on the program if time permits.

Teddy's Running Mate Talks

John M. Parker, who was nominated for vice president on the Progressive ticket with Theodore Roosevelt, made a strong speech for the election of Cox and Roosevelt in Cincinnati the other day. Parker was good enough in those days for thousands of good Republicans and what he says is going to have a telling effect today. He knows what Harding thought and said of Roosevelt at that time, and he calls upon all of the true friends of Theodore Roosevelt to repudiate the man who sought to blacken Theodore Roosevelt before the nation and the world. No one is better qualified to speak on this matter than the very man who was chosen as Roosevelt's running mate. Read what he said and then think hard, you friends of Theodore Roosevelt:

"And when I see the abuse and vituperation heaped upon his devoted head at the hands of the very man who is now the candidate of the Republican party, and who, only a few short years ago, denounced Theodore Roosevelt and his followers as Benedict Arnolds, I cannot but wonder at the brazen audacity of Senator Harding in appealing to former Progressives who had the moral courage to put human welfare above the dollar, and great principles and public welfare above party."

"I happen to know this same Harding was not only one of the men who most viciously attacked Theodore Roosevelt and all Progressives, but who was recognized by him as being one of the tools of the Republican machine, as reflected in the old

Harry Sommers claims that the Fourth congressional district has more good country newspapers than any district in the state. But we're inclined to dispute that. There are several mighty good papers in his section, but the old Eighth district cannot be beaten for good country newspapers, we opine. Can he name seven papers in the Fourth that will compare with the Harrodsburg Herald, the two Danville papers, the Lancaster Record, the Stanford Journal, the Shelbyville papers, not to mention any others?

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Warner.

Onalaska, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die, and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and I can do my housework without any trouble at all. I will always praise your medicine as I do not believe there is a doctor that can do as much good in female weakness, and you may use these facts as a testimonial!"—Mrs. LESTER E. WARNER, 1018 Pine St., La Crosse, Wis.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they helped them is the fact that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

Women of Kentucky Know the Issues!

The Republican Party asks the women of Kentucky to vote the straight Republican ticket on November 2nd strictly upon the issues involved in this campaign.

Every woman in Kentucky knows the true campaign issues.

The League of Nations as brought back from France by Woodrow Wilson and endorsed by the Democratic candidate for President is an offense to American womanhood.

It would barter off everything that the American nation and the American home stand for—that right to think and act for ourselves, to live our own lives and to help others as we can.

It would send our sons to war without our consent to fight for interests which are without our sympathy, at the order of foreign politicians and self-seekers who are not thinking of America or her people.

PORTER POINTS OUT THE BIG ELECTION QUESTION

J. Sherman Porter, of Lexington, field representative of the Democratic National Committee's organization department of which Congressman J. Campbell Cantrell is the chairman, was in Richmond Monday on his way to Lancaster, where he will take up with the Garrard county campaign committee the organization of Cox and Roosevelt Clubs in every precinct of the county. Mr. Porter will spend the week in the Eighth district and will confer with Judge Ralph Gilbert, the nominee for Congress at Lancaster, as to his future movements in the district.

Mr. Porter said that everywhere in the state he had been the Democrats were alive to the situation and that the white women would turn out on election day to meet the menace created by republican organization of the negro women's vote. He said the republicans would get nearly every negro and negress 21 years of age and some "not that old, but who appears to be," to the polls and that if the white men and women did not vote, Kentucky would certainly be a negro-dominated state hereafter.

Mr. Porter said that with the exception of Northern Kentucky, thought Senator Beckman would poll the full party strength. That section of the state, it will be remembered, was lost to the Democrats last fall on account of local issues.

AMERICAN FARM SCHOOL FLOURISHES IN FRANCE

(By Associated Press)
Chicago, Sept. 30.—French government officials have informed the Centenary Conservation committee of the Methodist Episcopal church here that the Centenary American farm school in France is proving its value to agricultural France by bettering conditions. This is being done chiefly thru demonstrating the value of modern machinery and training French orphan boys in scientific methods.

The farm is one of 200 acres at Charvieu, 20 miles from Lyons. It was established by the board of foreign missions of the Methodist Episcopal church with Centenary funds a year and a half ago.

L. B. Conn, of Danville, has purchased an airplane for his own use.

THE FALL

Mornings of gold and scarlet and russet of clear snappy mornings warm afternoons and frosty nights—of harvest promises fulfilled and of profit and prosperity for country folk—that's the Fall season.

And in these days the profits of the year's farm work are not hidden behind a loose stone in the chimney. They are used first for adding to the business investment represented by the farm—more land or stock, new buildings and new equipment. After these well advised expenditures the balance goes into the solid securities that pay a conservative but safe return.

Under the item of new equipment come many things for home improvement, things which tend to make farm life more comfortable and more enjoyable. And among these perhaps no one thing is being taken up more rapid than the farm electric plant. In practically every neighborhood there are numerous farm families who have completely equipped their homes with electric service. The house, barns and all other buildings are brightly lighted. Electricity does the milking, separating, churning, pumping, washing, ironing and sweeping. There's scarcely a moment in the day when electricity isn't making things easier and more comfortable for some member of the farm family.

Now the good name of service of this kind spread rapidly from one home to another, and as a result we see more and more farms this year putting a part of their year's profit into electric service for the home.

THE "OLD RELIABLE" THEDFORD'S BLACK-DRAUGHT

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Thedford's Black-Draught is a standard household remedy with a record of over seventy years of successful use.

Every one occasionally needs something to help cleanse the system of impurities.

Try Black-Draught. Insist upon Thedford's, the genuine.

“Tis seldom that we are able to offer you a chance equal to this one. Situated between the villages of Kirksville, Ky., and Round Hill, Ky., on the Kirksville and Kentucky River turnpike known as the John W. Turner property to be offered for sale to the highest and best bidder on

Saturday, October 9, at 10 a. m.

Kirksville is a town of about 500 people, has a bank, general stores, drug store, Lodge Hall, garage, meat shop, blacksmith shop and a live progressive town, just one mile north of Kirksville most space between these towns built up in homes), is the town of Round Hill, a thriving little village that can boast of nearly as many inhabitants as Kirksville, has its blacksmith shop, garage, three general stores, grist mill.

KIRKSVILLE HIGH SCHOOL

About half way between these towns and within one-fourth of a mile of the property we are going to offer, is the Kirksville High School. Said school is accredited and gives a child a 12th grade education without costing the parent or property owner any tax except the regular county school tax. A handsome brick structure that is a credit to any community. This neighborhood is noted throughout Madison county for its high morals and a hunger among its citizenship to build and mold into the minds of its children a desire for higher and better things. A real place to rear and educate your children.

ACREAGE AND SOIL

Only 34 acres of this dandy little farm, and this of good land, a good portion being of that high type sand-stone soil which is noted for its wonderful production and high priced burley tobacco.

SUB-DIVISION

There are many people who would like to own this home, but who feel that it is too large for their pocketbooks, so I am going to divide this place into three or four small tracts to permit you to get just the number of acres you want.

IMPROVEMENTS

A modern six-room cottage house, nearly new, with a pretty front yard, young shade trees growing and in all just a pretty place. A four acre tobacco barn with galvanized roof and nearly new. Fencing is of the best and all nearly new.

If you want a good place to live, where you can make easy money and where your wife will always wear a smile and greet you pleasantly when you come about, and where your children can get real life and receive education without being put to any additional expense, I have the place.

We will be glad to take all interested parties over the land before the sale and will be glad to cut off any piece or part of this farm and offer separately if you are interested and will see John W. Turner, at Kirksville, Ky., or

Says His Prescription
Has Powerful Influence
Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided after years of ceaseless study that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription which quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging, he decided to let sufferers everywhere know of his discovery through the newspapers. All druggists have been appointed agents for Allen's cure, and they will sell it at a reasonable price.

Allen's cure is sold in bottles, tablets and capsules. It is a simple, safe and effective remedy.
